26th October - End October	Any help on hedges, edges	and winter tidy up

The P.C.C. is really grateful to you for this work.
A few notes:-
Please do not tip the mower on either side or it will flood which causes significant problems.
Please take care (especially if you are using your own ride on mower) of hidden hazards such as granite footings around downpipes or parts of gravestones.
If you are doing any strimming, please wear safety gear at all times and advise others who may be close by, of the danger of flying debris from the strimmer.
Mowers are asked to attempt to collect cut grass and to dump it on top of an established compost pile and not start a new pile.

Local agreements to cover holidays or other issues will not be shown here.
